Sarah,

Please find a clean copy of the proposed Engenia herbicide labeling. As I mentioned last week, the only change to the version that you already have is the inclusion of a RUP Record Keeping Requirement #20 to account for the required Buffering Agent.

Please let me know if you have any additional changes.

Thanks,

Jeff

Subject: [EXT] RE: Engenia proposed labeling

Hi, Jeff. Please send us a clean copy of your most up-to-date proposed Engenia label. I know there may be some things to still discuss and finalize, but we'd like to have a fresh copy to review ASAP.

Thanks,

Sarah

Subject: Engenia proposed labeling

Dan,

Everything is moving so fast, but I wanted to submit another update for the proposed Engenia herbicide labeling. These changes do not directly impact the agreed upon mitigation changes, but correct inconsistency and remove a few artifacts from the previous Engenia herbicide labeling that was the starting point for this proposed labeling. I don't mean to be disruptive in the middle of the review process, but if these changes can avoid last minute changes that are needed prior to approval then I would rather make them available to you at this time.

As always, let me know if you have any questions or comments.

Thanks,

Jeff
